STEWARTON.

STEWARTON, Feb. 22.—Mason school was the scene of a very pleasant entertainment on Patrons' Day. The program for the afternoon consisted of several recitations and addresses, also a dialogue.

The devotional exercises were conducted by Rev. F. S. Wortman and were followed by an address, "The District School When I Was a Boy," by W. A. McCune. The next speaker was J. H. Pringle, who spoke of "The Present Text Book System and Its Evils." Mary Eschbacher gave an oration, "The Fate of the Aborigines," and A. L. Ring read an essay on "Abraham Lincoln," closing with the Gettysburg speech.

George W. Markotta, President of the School Board, was the first speaker after intermission. He spoke of the progress of the schools of Springfield township in general and of Mason school in particular. Rev. F. S. Wortman then spoke of "The Relation Between the Church and the School." W. S. Colburn was the last speaker and gave a general address on "The Education of the People," giving also a small history of our school about its twenty years.

Mr. J. H. Pringle, who has been in the school for many years, said, "In nearly every branch of industry in our country, some of its students have become successful farmers, some have engaged successfully in the mercantile business, some are physicians, some lawyers, some ministers, some teachers, and there is still lots of room in all these professions for you who help to make up this school today. If you will but reach out and grasp it."

Besides the above addresses, the program included appropriate music and recitations by the following: George Ruse, H. H. Hill, Frank Krepps, Hattie Olier, May Hawkins, Clarence Hillabird, Irene Herwick, Edna Hawk, Pearl Hawk, Raymond Hillabird, Fred Hawk, George Krepps, Addison Olier, Fred Joy, Lillian Johnson. The entertainment was concluded with "The Old School at Hickory Hollow," a comic dialogue for ten or twelve characters. For want of time the program could not be completed in the afternoon, hence part of the recitations were carried over until evening, when the teacher gave a spelling bee. The house was packed at night and all were quiet and orderly, the teacher not having to stop once to ask for quiet. The dialogue was repeated at night.

Those present in the afternoon were: Rev. and Mrs. F. S. Wortman, Mrs. P. S. Krepps, Mrs. S. H. H. Hill, Mr. and Mrs. Francis Eschbacher, Mrs. W. M. Whipple, Misses Dollie and Grace Hillabird, Mrs. Shearer, Mrs. Curtis Hawk, Mrs. W. H. Herwick, Mr. and Mrs. Frederick Hillabird, Misses Jean and Ida Shipley, Misses Violet and Ida Shipley, Mrs. Paul, Mary Parkley, and Sunday school children, Mrs. Andrew Hawk, Miss Gertrude Hawkins, Earl Dettling, William Marietta, Arthur Friend, Miss Jessie Friend, Miss Jessie Tison, Mrs. H. C. Krepps, Mrs. S. H. Hill, Mrs. W. A. McCune, John Arzbacher, E. L. Hider, J. H. Pringle, John Dahl, Allen Smalley, Albert Shearer, Charles Shearer, Raymond Hawk, Earl Shipley, Mrs. S. H. Hill, Hartzell, Ode Watson, Olive Rowan, William Hall, Andrew Hall, Bert Shipley, Joseph Gibson, G. W. Marietta, W. S. Colburn, Harry Whitaker, John Hillabird, Jr., Ralph Shipley, George Colburn, E. R. Shipley, A. L. Ruse and thirty-nine scholars, making one hundred in all, two more than last year's attendance, which was thirty-eight. There would have been more in attendance this year but for the dangerous condition of the school house.

CROSS OR FEVERISH HALF-SICK CHILDREN

Mean Their Bowels are Waste-Clogged, Liver-Singlsh and Stomach Sour.

Your child isn't naturally cross, irritable and peevish. Mother! Examine the tongue; if coated, it means the little one's stomach is disordered, liver inactive and its thirty feet of bowels clogged with foul, decaying waste.

Every mother, reflexly, after giving delicious "Syrup of Figs," that this is the ideal laxative and purgative for children, believes it regulates the little one's tender stomach, liver and bowels so effectively, builds their healthy and delightful life.

For constipated bowels, sluggish liver, biliousness, or any disorder of stomach, feverishness, diarrhoea, sore throat, bad breath or to break a cold, give one-half to a teaspoonful of "Syrup of Figs," and in a few hours all the clogged up waste, sour bile, undigested food and constipated matter will gently move on and out of the system without griping or nausea, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious, reliable, genuine old reliable. Refuse anything else offered.—Advertisement.

WHY NOT USE COMMON SENSE?

That Cough May Develop Into Terrible Consumption.

Take Bear's Emulsion and Save Your Life—Tuberculosis the Worst Foe in Virginia Today.

Tuberculosis is an old disease but with its age it has gathered to itself great strength. It is the most formidable foe which we have to contend in Virginia today.

It is more insidious than any of all other diseases combined, because the public are wide awake to the dangers of such diseases as smallpox, typhoid fever, diphtheria, pneumonia and scarlet fever; and we take the necessary precautions regarding them, but we fail to use ordinary common sense when we come to deal with consumption, the most prevalent and most destructive of all. Tuberculosis increases more rapidly than any other disease.

Why? Because the people of today don't stop until they have to.

They will go themselves and let the members of their family go with a cough, sore lungs, weak spots, when as soon as they take cold it strikes them every time. Stop and think of the awful headway consumption is making today. Consumption can be cured and if you haven't it, you can take care of yourself so you won't get it.

But you want to keep your system in good shape. And to do this take Bear's Emulsion. You can get it in your town and it only costs one dollar a bottle.

One More Week

AS A GREAT MANY PEOPLE WERE DISAPPOINTED I HAVE DECIDED TO CONTINUE THIS WONDERFUL OFFER AND FOR BALANCE OF WEEK I WILL GIVE YOUR EYES WITH \$5.00 OR \$5.00 STEVENS' S. Q. GOLD-FILLED EYE GLASSES FOR \$1.00. SATISFACTION GUARANTEED OR MONEY REFUNDED. PLEASE REMEMBER, I AM DOING THIS TO BUILD UP A PERMANENT BUSINESS. COME EARLY IN THE MORNING AND EARLY IN THE WEEK AND YOU WILL BE SURE TO GET WAITED ON.

THIS STEVENS OFFER is an advertising proposition pure and simple—your advantage is a superior grade of goods at a special low price—my profit is making 600 new acquaintances and winning their confidence.

Stevens mountings are the best in the world—light, occupy the same position in the optical "trade" as "Rogers Bros. 1547" or "Waltham" do in the watch business.

SUCH A STARTLING ANNOUNCEMENT even if it makes you ask if it is absolutely bona fide, and if so, why I do it. The whole story is this: I have decided to make this unheard-of sacrifice of regular \$5.00 and \$5.00 gold filled glasses at \$1.00 for one week to gain the full support and patronage of Connelville people and thus build up an extensive optical business. The lenses are the same I use in my regular lines, every one fully guaranteed, and I use just as much care in fitting the eyes. Difficult cases a specialty.

Headaches and nervousness and other troubles far remote from the eye are oftentimes the direct result of an eye strain, which, if corrected with the proper glasses, would give immediate relief. It is not necessary for the eye to be sore to indicate the need of glasses. In many cases the eye may be perfectly healthy, but glasses may be needed for the reasons which are only apparent to the physician or skilled eye specialist.

During the wonderful offer I will be in charge and every patient will get a scientific examination and glasses properly adjusted. REMEMBER I am making this offer to build up my business, and cannot afford to exaggerate. Special prices during offer on specially ground lenses and Bifocals.

For one week only, Gold Filled Eye-glass Mountings—every pair guaranteed by the makers—fitted with our own lenses—including examination, \$1.00.

All frames and mountings are stamped on the bridge Stevens S. Q.—don't take my word. They are gold filled—not gold plated—permanently guaranteed—and will be replaced at any time if they fail to give satisfaction.

THE POWER OF YOUR PENNY.

(Copyright, 1913, by J. P. Fallon.)

Not so long ago the best buyer was the man or woman who could "dicker." The buyer and seller spent hours in arriving at a satisfactory price. In those days the buyer could never be certain of the quality.

Advertising has benefited you in these two respects among other things. When you buy from THE COURIER'S advertisers you do not have to haggle about the price, nor worry your mind about the quality. Both are fixed, and the best to be had in the city.

The power of your penny is increased, and has a more certain value through your reading advertisements. By closely and conscientiously reading THE COURIER'S advertisements you can still further increase the buying power of your penny.

LEGISLATIVE REFORMS.

The legislative situation as outlined by our Harpersburg correspondent illustrates the utter impotency of the insurgent Republicans who call themselves Progressives and the moderate Democrats who call themselves reformers.

These elements, which dominate the House, have followed the policy of reporting bills out of committee without hearings, and passing them without debate, in a mad ambition to make the biggest volume of session laws ever filed by a single Legislature. Quantity but not quality seems to be their aim; and singularly enough these authors of the almost forgotten slogan of the late political campaign concerning the right of the people to rule, so far from consulting the people whom they represent, exhibit a painful desire to rush bills through lest the people might have some opinion to pass some requests to reject or some protests to utter concerning them.

The result is that a mass of ill-digested and half-baked legislation has been dumped upon the members of the House, the professional reformers of the latter have indignantly and make threats. One of these threats is that unless the Senate acts upon all bills, the House will refuse to adjourn. This threat is particularly silly. The Senate will doubtless act upon all bills, after it has had time to give them due consideration, and its action will be rapid and decisive. The Senate, being a much smaller body than the House, and its members being less given to the oratory that loves the sound of its voice, naturally will act along with its work. It will have plenty of time to give the House bills that careful thought which they have not had, and to clean up the calendar, though perhaps not to the liking of the lightening legislators of the lower house, all in plenty of time for adjournment. There will be no test of endurance between the two houses. In such a fashion, however, the lower and larger house would stand no chance of winning.

The Harpersburg situation is also a striking illustration of the operation of the reform method of governing legislative bodies through an executive committee instead of by the speaker. The committee government seems only to have caused trouble. The House could have organized just as well without its committee; in fact, in the final analysis the committee choice for officers was disregarded.

GEORGE.

The proposed Congressional Appropriation of Pennsylvania has provoked the indignation of George W. Guffey, member of the Democratic Legislature which through one of those Mexican revolutions that sometimes overcome the long unsettled and uncertain Democracy recently overthrew Colonel James Madison Guffey, the easy boss with the open heart, and established itself as an aristocratic power.

The Transvaal is on the right side in the recent Democratic Presidential campaign, and to the natural haughtiness of autonomy there has now been added the imperial insolence of lofty station beside national power and federal patronage.

The burden of George's complaint seems to be that he was not consulted about the appropriation. He modestly calls himself the People, but actually, including some Democrats, gets him right. He has no criticism to make of the plan of appropriation, and until someone presented it will find it necessary to discuss George further.

George is willing to do a great many things for the Democratic party, particularly the job of New William, and now Bill won't. In the meantime Woodrow isn't saying a word, by heck.

A shaft at random sent is just as likely as not to hit a lot.

Ernest Francis Acheson, Republican member of Congress for many years, but an insurgent ever since he was defeated for reelection, hopes that no Bill Moose will ever try to butt his way back into the Republican party. The irreconcilables are those who feel that they can never get back because of their particularly ungrateful or atrocious conduct, but they are a handful compared with the others who were misled and now realize the folly of further dissension in the party when it seems likely that the factions can set together without serious trouble.

The winter of 1913 hasn't cut much ice.

The blue sky limit has been reached and passed by the inauguration rates of the Washington hotels; but then, the inauguration of a Democratic President is an unusual event.

Madero is said to be a good Spiritualist, but he is evidently a poor mind reader.

In passing upon the appropriation for the maintenance of the Department of Justice of the United States the Democratic House inserted a provision that no part of the sum appropriated shall be expended in prosecuting any suits against labor unions or farmers' organizations. The Democratic Democrats are already making statehood with politics.

The new policemen are slowly gathering on the Conneltsville job.

The Steel Corporation will spend two millions in enlarging the Sharon sheet mill. Perhaps the appropriation was made when the roads set better.

Large Government reserves draw no interest, but the Government is no loan shark.

The information that benzol, a by-product of coking in retort ovens, may be made a substitute for gasoline, opens up a new field for by-product speculation. Some of the merchant operators of the Conneltsville region might chip in and build a small experimental plant just big enough to make enough benzol to run their automobiles.

The Republicans of West Virginia have shown how they can get together on a good man when they make the proper effort. Their example is an excellent one to follow in other States.

Tate's Hollow gives up its dead, but not its tale.

Connellsville capital is engaged in the coke business on the Allegheny river, not because the location is better than the Conneltsville region but because it is more available.

If one-half the testimony is true, the Blaney-Woolsey litigation is not very uplifting.

The proposed \$5,000,000 smelter will be quite an addition to the industrial life of the Pittsburgh district, but it will not be a desirable front yard ornament.

The Suffragettes will be out in force at the inauguration of President Wilson. Some ladies will be there too.

Some railroad men are born orators. For example, there's General Manager Vohs of the Lake Erie railroad. He can talk Lake Erie at any time, anywhere and at any length.

Dancing is not on the hog in Conneltsville, but it is known to have been in the trough.

Connellsville men are seldom attended with loss of life, and that of the Richey home on the West Side is for this reason particularly deplorable.

Both Taft and Wilson decline to look upon the Suffragette parade, and it is suspected that they do not want to be on the firing line when the Pros and Antis meet.

Porfirio Diaz is preparing to return to Mexico. The old boss hasn't been at Elba, but he was near.

The Pennsylvania railroad has ordered \$3,600,000 worth of new cars to replace old ones. It takes real money to run a railroad.

Cumberland's carbon monoxide plant is still doing business at the same old stand.

In some sections of the Conneltsville region it is not safe to have money, and it's mighty unhandy to be without it.

Animals will not be allowed in the inauguration parade. The management is taking no chances on the bunny-hug and the grizzly bear.

Legal Notice.

TREASURY DEPARTMENT.
Office of Comptroller of the Currency.
WASHINGTON, Feb. 10, 1913.
WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that THE YOUGH NATIONAL BANK OF CONNELLSVILLE, in the Borough of Conneltsville in the County of Fayette and State of Pennsylvania, has complied with all the provisions of the Act of Congress "to cause National Banking Associations to extend their corporate existence, and for other purposes," approved July 12, 1901.

NOW, THEREFORE, I, Thomas P. Kane, Deputy and Acting Comptroller of the Currency, do hereby certify that THE YOUGH NATIONAL BANK OF CONNELLSVILLE, in the Borough of Conneltsville, in the County of Fayette and State of Pennsylvania, is authorized to have succession for the period specified in its amended articles of association, namely, until the close of business on February 6, 1913.

IN TESTIMONY WHEREOF, I witness my hand and seal of office this Tenth day of February, 1913.

T. P. KANE,
Deputy and Acting Comptroller of the Currency.

Charter No. 4861. Extension No. 3221. 10Feb24

Men of Conneltsville

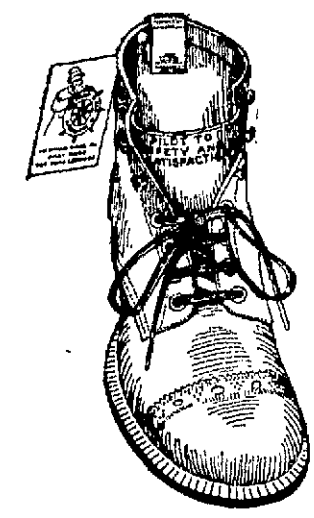

When you see a Conneltsville boy making an honest effort to do something for himself you feel like giving him a little boost, don't you? Here's your chance.

The 27 boys of our Campers' Club are earning money to pay their own way in camp next August. They have secured the services of the Ray Concert Company, (singer and impersonator, soprano soloist, and pipe organist and pianist) who will give an evening of rare entertainment in the First Presbyterian Church on Thursday evening, March 14th, on exceptionally liberal terms. The net proceeds will be divided among the boys in proportion to the number of tickets each sells. The admission will be but 25 cents, though I give you my word for the entertainment will be of the highest class seen on the Chautauque platform.

The boys will appreciate your patronage, and so will I.

Sincerely yours,

E. T. BAER, Genl. Secy. Y. M. C. A.

Our First Exhibit of Spring Styles

In Coats and Suits

Our first showing of the new spring styles in ladies' Cloaks and Suits is an interesting one, inasmuch as a great many of our city's most careful dressers look to this store for their authority in style. We shall not attempt here to describe in detail the styles upon which Dame Fashion has set her mark of approval for this season, but will ask you to call at this store and observe for yourself the beauty and grace, quality and tailoring of these garments as well as the reasonable prices at which they are marked. We now have a very good selection of style, coloring, fabrics and serges in plains and novelties, that cannot be beat in prices, especially our popular priced garments that are marked to sell at... \$20 and \$25

Diapers.

For convenience, as well as economy, we have added to our stock of infants' wear, the best ready-to-use diaper on the market. 27x27 inches, torn and hemmed, non-irritant, aseptic, absorbent and durable. Comes put up in sealed package and marked at one for... 10c

Linen Crash.

As headquarters for the best in all linen crashes or toweling this store has always taken the lead. At 10c we have a good, every-thread linen, extra heavy and full width, that can't be beat. Other good values at various prices. Also a good line of glass crashes at... 12 1/2c

Kid Gloves for Spring.

The Centemeri Glove, for which we are the local agent, is considered by those who know, to be the most desirable dress glove made. The new styles are here awaiting your inspection. That big dollar value in black, white and tan. The two dollar fine dress in black, white and colors and in black with white trimming and white with black trimming. The sixteen-button length in black and white at \$3.50 and a good line of wash gloves in chamoisette at 25c and 50c, and silks at 50c to \$1.50.

ELEVENTH DISTRICT PRODUCTION SHOWS A SLIGHT DECREASE

By the Report of Mining as
Made by Inspector D.
R. Blower.

THREE MINES WERE ABANDONED

District Produced 6,657,845 Tons of
Coal and 2,300,418 Tons of Coke
the Pick Company Lending With
5,023,106 Tons of Coal.

Special to The Courier.

SCOTTDALIE, Feb. 22.—In his annual report Inspector D. R. Blower shows that there was a slight decrease in coal production in the Eleventh District during the last year, 1912 as compared to 1911. The total output for the district was 6,657,845 tons, with a total number of tons of coke produced by 5,023,106 tons in operation. There were 5,415 acres in operation, with 11,115 acres in the district. The coal this year had 6,209,070 tons to its credit while the compressed air machines mined 487,355 tons and electrical machines produced 3,990 tons.

There were 11 fatal accidents inside and one fatal accident outside the mines. The number of tons of coal produced per acre was 111.15, while the coke produced per acre was 92.15. The preceding year there were no fatal accidents outside so that the tonnage produced without fatal accident then was 6,225,529 and coke 3,990,121. The mines idle during the year were Enterprise, South West, King, Hunter and Pennsylvania, and those abandoned were Miller, Hester and Scottdale. The work of the district of the manufacturer in establishing improved sanitary conditions such as the Pick coke company expended so much on are commented upon by the Inspector. Following the "Safety First" motto in increasing force is shown.

There was a total of 5,173 safety lamps used in the mines, the heavy lamp being 2,151, the Wolf 1,912 and the Schenck 110.

The following is the summary of statistics:

	Coal	Coke

MT. PLEASANT

MOUNT PLEASANT, Feb. 21.—Yesterday was the last day for "Patrons' Day" that was held in the schools. The three number of parents and school friends who attended were made welcome and were shown in the rooms they wished to see by the ushers, Wesley Kalls, Mrs. Shields, Raymond Holmes, George Galloway, at the First Ward building; Ralph Kuhn, Leroy Biecher, Charles Walker, Wilmer Morrison, Frank McLean and Harry Blackwood at the High School building; Clyde

Hahn, Chester Whetzel, William Kunsky, Ernest Anderson and Edward McGeehan at the Third Ward building. In the most of the rooms the regular school work was going through with and some very good papers for the larger rooms was on exhibition while in the primary rooms some beautiful and very clever work was exhibited and it was here that the persons visiting lingered to look at the clever work done by the children. In High School the Philo and Euclid Literary societies held sessions and rendered excellent programs.

Matthew, the four year old son of Mr. and Mrs. Hugh Gibbons, who died of meningitis at his home at East Washington street home after being ill for two days, was buried in St. Joseph's Cemetery yesterday afternoon.

Helen Cort went to Scottdale yesterday to spend Sunday with friends. E. M. Carson of Irwin was a caller here yesterday.

Says A. A. Clarke if Ames Kidney Pills Doesn't Banish All Kidney Troubles.

Did you ever stop to think, dear reader, that the kidneys become clogged and that the blood is liver and that disease is apt to follow?

You take medicine once in a while to unload the liver. Why not take Ames Kidney Pills to unload the kidneys, then note results.

The kidneys you know strain the blood and if these strainers are clogged, bright disease may follow.

If you have backache, colic, shooting pains, high colored urine or any symptoms of kidney or bladder trouble, put your faith in Ames Kidney Pills and you won't be disappointed. Better take a few doses and drive out the impurities, anyway. You'll feel better, for these pills are a splendid tonic. A. A. Clarke guarantees them. 50 cents. "Indeed I do not. He was altogether too impulsive and rushed the dickens for it. But of course we were all highly wrought up, and the appearance of one creature was not conducive to the quieting of one's nerves. But I am convinced that he intended no harm until he was wounded. But it was plain enough to be seen that either you personally or that ornament you wear appealed to him strangely. His resemblance to the man I saw in the window of the hotel was somewhat. He appeared to wish to detain you and try and communicate with you more than to do any injury as well as I could judge by his movements and the expression in his eyes. Had Clay restrained himself he might have been able to establish some sort of an understanding with him which would eventually have led to our being able to communicate intelligibly with each other. For I am convinced that he is some sort of a human being who speaks some sort of a language. And try and imagine what a leap that would be for human knowledge! actual mouth-to-mouth communication with a being from another celestial body. Heaven only knows what might have come of it if he could tell us of his travels on that dying home of his. But as it is, I am afraid it is a useless venture. I have upon myself a creature who with his wonderful gift of flight and imbued with the belief that our only desire is to do him harm can if he so desires wreak a terrible vengeance upon us. And that he now considers himself an outlaw with a price upon his head is a fact, and being afraid to again trust himself amongst us and with no possibility on his part of escape from this world, there is no telling what crime or series of crimes he may attempt."

"And suppose there should be more than one of them, a dozen, a hundred, a thousand?" she exclaimed in a low voice. The man's face grew very serious.

"Then so much the worse for the world. For if they possess the intelligence and potential vindictiveness which I am afraid they do, a score of

Doris Bent Over Him.

There could well high drive a nation frantic. They could sweep down upon isolated places and strip themselves with guns and dynamite. They could destroy from above in the blackness of night. They could retire to fastnesses whenever they desired to rest and plan new war. Until they were destroyed one by one they could lay tribute upon the land for our wealth, our stock, our goods, our millions—in fact, anything we possess except our women and children. And those!" she cried quickly.

"And even those they could steal, one by one as cultures steal chickens." The girl shuddered.

"God forbid. Yet Clay shot in an effort to protect me—perhaps even did save me—and I cannot forget that. Look! Is that not he?" March gazing through the gloom saw a form sitting listlessly upon a seat in the deep shadow of a tree.

"Tolliver!" he called.

"Here," came the answer faintly and they hurried to his side. He was bent over, evidently suffering, and by the light of the Japanese lantern they saw that his face was drawn and pale. Quickly Doris bent over him.

"Are you badly hurt?" she inquired, a world of solicitude in her voice.

"I don't know—but I am in a good deal of pain. He struck me a terrible blow in the side."

"But why did you come to this place—why did you go into the house, where we could care for you?"

"Because I felt faint and thought I would be better off here by myself. You had better go and look after the others. I can take care of myself

until things have quieted down." She became very decided, very imperative in an instant.

"Indeed you shall not." She faced March. "Go at once and bring Dr. Raymond. I will remain here until you return." Then she turned her back upon him as she again addressed the sufferer.

"I am very sorry. And if you are really injured much you shall stay at our house until you are well and I myself will see to it that you are attended to." March faced about and started upon his errand with a frown. Of course the milk of human sympathy for the suffering was all right enough when distributed in reasonable quantities—his, too, was sorry for Tolliver—but there was such a thing as overdoing even sympathy. And Clay would stay with them and be nursed by her personally in case he thought he was seriously hurt! Then of course he would think he was seriously hurt, any man would under such circumstances, he would himself if the chance had come to him—and would have prolonged his sufferings to the last possible moment. Jealousy he stamped away, wondering if he had been in Tolliver's place if she would have been so distressed over him.

He entered the house and found Dr. Raymond, who had just finished dressing Desmond's severe cut, told him of Clay's complaint and returned with him to the bench under the tree. Doris had seated herself by the sufferer's side, unnecessarily close as March thought, and was speaking to him in a low tone. She got upon her feet and greeted them as they approached. "I am so glad you have come, Doctor. I think he needs you." The physician bent over the sufferer.

"Where does it hurt you most?"

"My left side. He hit me pretty hard—I guess with the joint of that infernal wing. Felt like I imagine a mule kick does."

"Can you get upon your feet?" Tolliver arose slowly and stood slightly stooping.

"Yes, but I cannot stand erect. I seem to have a list to port." The man of medicine grunted.

"All right—I'll see you through. Take hold of his other arm, March. Alan, obeying, slipped his hand beneath the shoulder and they slowly walked the injured one within the house, and then by Doris' directions into an unoccupied guest chamber.

"And now—" said Raymond, with a hand to the girl. She comprehended, hurried and began to retreat.

"Yes, I will leave the room until you summon me. I will be close at hand, however. And be sure to be very careful with him unless you wish to incur my displeasure." She closed the door and was gone, leaving the three men alone.

Definitely the physician, with the help of March, bared the afflicted side and the former ran his fingers over it, pressing, tapping and questioning as to pain, his eyes closely following every expression of the pallid face beneath him. These minutes of this and he announced his decision.

"Fifth rib fractured. Nothing else damaged that I can discover. I'll soon have him strapped up. Going to a hospital."

"No, I am going to remain here for tonight at least." Redmond congratulated him.

"Best thing you could do." He quickly divested the patient of his outer clothing and placed him between the sheets, bandaged him tightly about the chest and then stepped to the door. "Miss Doris," he called. Almost instantly she appeared, pale of face but resolute, calm.

"I have just been in to see you, Mrs. Edmunds—don't it horrible! Several of the scouting party have returned with automobiles which they secured somehow; and they are now taking her and the rest of the guests to their homes. The scouts report considerable disorder upon the streets but nothing alarming. The city has not heard of the Flying Man as yet, but the telephone is in working order again and they are trying to get the police department on the wire in order to notify it. Some of our guests have received very bad news and they are frantic to get to their homes. None of their people are known to be dead, but there are disappearances, injuries and serious after effects in several cases." She approached the bed. "How is our individual patient, Doctor?"

Raymond closed his pocket case with a snap. "Nothing more than a broken rib, and I have fixed that up for the time being. All the treatment he needs is feeding, assistance when he has to move and rebandaging by a physician from time to time. Keep him as quiet as possible. He will be out in a week or ten days at the latest." Redmond smiled—if he wanted to be, he added jokingly.

Doris gave a sigh of relief. "I am glad it is nothing more serious. And will he need any further attention to-night?"

"Nothing more in the way of treatment can be done. I have left him a sleeping potion which he can take

presently if he sees fit. But of course he will require more or less physical assistance for a time when he has to move." She nodded comprehensively.

"I will get a hospital nurse first thing in the morning to do the professional part of it." A little laugh burst from her lips. "But I shall insist upon remaining head nurse and waitress. And in payment the patient shall read to me from Homer, Dante and Keats. He recites delightfully, you know." Tolliver was a lawyer, was in reality a pleasing reader and speaker, and once more jealousy came crawling like a worm into Alan's soul. From the bed came the voice of the injured man.

"It is kind of you—too kind. But as you know, I have no place to go except a hospital, and if you could

all—nobly. Rest assured I shall not forget it."

"Even when he is reading to you?" he returned with a trace of sarcasm. Over her face came a tiny frown which, however, vanished as quickly as the shadow of a passing bird.

"But he was injured in my defense. Would you have me turn him out into the night when he is suffering?" Knowing full well that he was unreasonable, March was still internally sulky as he answered her.

"Most certainly not. But you seemed so abnormally enthusiastic over the prospect of having him with you for days and maybe weeks."

"Perhaps you would have me intimate to him that his presence is a burden!"

"Not at all. But there is reason in all things."

He let his hand fall upon the knob and stood confronting her, his face troubled, his voice low and earnest. "Doris, you know that I love you, and when a man loves a woman as I do you he would be a strange animal if he were not jealous of everybody else. He might not want to exactly kill every other man that came hanging around her, but if he had horns he would be sure to hook them out of the way. And I do recognize the fact that Clay is popular among those of your sex at least. And when I see your solicitude for him when he is not even injured seriously—well, it makes me wonder if I were in his place if you would be equally sympathetic. Do you suppose you would?" She averted her eyes, glancing down at the dainty toe of her white slipper, which tapped the floor tantalizingly.

"How can I tell since you are not seriously injured?"

He turned up the collar of his light coat preparatory to facing the cool night air without. "Doris, if you are really in doubt as to your feelings toward me I am content to be patient until they have crystallized and you know your own mind. But if you are really letting me make love to you during all this time through vanity—" Her eyes commenced to flash and he paused abruptly.

"Do you wish me to answer you to-night?" There was a challenge in her manner that caused him to hasten to dodge a bit.

"By no means. And taking all in all into consideration I do not know but that things are better as they are. You will be with Tolliver considerably in the near future, and so far as I am concerned you and he shall not be interrupted. This shall be his day in court to plead his case. At the end of his stay I shall come to you again, but until then I shall leave you undisturbed unless you inform me that I can be of assistance or that you wish to see me for any reason. Good night." He opened the door, holding out his hand to her as he did so. She took it with great formality. "Very well, it shall be as you say. If I really need you I will certainly let you know. And please do nothing desperate while you are reveling in your misery. Nor forget that I prayed you, Adonia, mia amplex." She smiled peacefully and retired a step, and with a last bow March passed down the steps, biting his lips at the mockery of her final adieu.

Once upon the street his feet fell heavily. For the first time that night he realized that he was weary. Inexpressibly weary, with a pain that pulsed through his head with the steady insistence of a slowly beaten drum. He had intended to go into

the more thickly settled business district to see if he could be of any assistance there, but so worn out by the excitement and mental and physical strain of the night was he, and so dispirited did he feel that the sufferings of others now gave him little concern. At any rate there would be plenty of unpaired to assist the unfortunate, a hundred who were well to one who was not, and besides there was little likelihood of his being able to do more than get in the way of those more qualified for the task. So that as it might, the rest of the world would have to worry along without him for the night—tomorrow he might feel called upon to sacrifice himself. He went straight to his apartments.

EGZEMA ON HANDS ITCHED AND PAINED

In Pimples and Blisters. Lost Sleep. Could Not Put Hands in Water. Swollen, Fingers Stiff. Cuticura Remedies Healed Hands.

Violent Itch, New York, Pa.—"My hands were sore with eczema over three years. The eczema broke out in pimples; it was in blisters, itched and pained awfully, and caused me to lose much sleep at night on account of itching. I could not put my hands in water or do other work. My hands were very unpleasant to look at. They were swollen and itched so much that I could not sleep at night. I tried many different kinds of patent medicine and nothing seemed to help. So my mother got some Cuticura Soap and Ointment. I only used one box of Cuticura Ointment, one cake of Cuticura Soap and two boxes of Cuticura Pills, which I only used two months, night and morning, till my hands were healed and now they are as good as ever before."

(Signed) Miss Ada E. Shearer, Jan. 19, 1913.

If you wish a skin clear of pimples, blackheads and other annoying eruptions, hands soft and white, hair fine and glossy, and scalp free from dandruff and itching, begin to-day the regular use of Cuticura Soap for the toilet, bath and shampoo, assisted by an occasional light application of Cuticura Ointment. Sold everywhere. Liberal sample of each mailed free, with 25¢ Skin Book. Address: "Cuticura, Dept. T, Boston."

She Was at His Side.

Tolliver was for a few days until I can move about."

"Tolliver, you! I should never forgive you if you did not stay. Also, father is equally insistent. After what we have all gone through together to-night—after what you men have done to encourage and protect us women—and after the way you personally fought and got hurt for us, how dare you, lying there helpless, speak of toleration! I will not listen to such nonsense." The swiftness of her speech and the intensity of her manner caused March to pick up his hat.

"And having served my purpose I think I had better depart and leave you to your duties," he remarked dryly. He approached the bed and held out his hand. "Good night, old man, and good luck. Good night, Doctor." His eyes met the girl's for a fleeting instant—"good night, Miss Fulton."

He backed bowing into the hall and started for the front door, but before he had made half a dozen steps she was at his side, her hand touching his shoulder.

"Good night—Alan."

She had seldom called him by his first name and the sound of it from her lips thrilled and mollified him slightly, though jealousy still rankled him. "Good night, good friend."
